## 2. ESTABLISHMENT AND HISTORY OF THE ASSOCIATION OF ST. VINCENT DE PAUL

**Frederik Ozanam (1813 – 1853) university student of law, later university professor of philosophy, law and literature at the Sorbonne, scientist, writer, father of a family, member of the French National Assembly.**

On **April 23, 1833**, at Frederik's instigation, six university students of law, medicine, and literature met and **founded the Conference of Christian Love, which was later called the Society of St. Vincent de Paul (SVdP). This name is still used by the Society all over the world today.**

Young students, that is, already members of the Conference, began to visit the poorest districts of Paris, which was helped by the religious sister **Rozália Rendú, Daughter of Christian Charity**, who had a great influence on the charity service. They shared their income, which they received from their parents, it was money, food, clothing and solid fuel. In poor families, children were taught to write, read and were taught their religion. Later, they started visiting barracks and prisons, where spiritual and material help was needed. They founded journeymen's workshops, which produced trained journeymen and masters from the poorest families, who then helped their parents and thus poor families became self-sufficient. Frederik Ozanam was interested in social issues and criticized the political regime in which enrichment was the main goal. He wanted to achieve a division of labor, rest and retirement for the workers.

**In 1845, Pope Gregory XVI. /1765 –1846/ approved the organization and its statutes, which Society of St. Vincent de Paul becomes an official work of the Church.**

He called individual member communities from 5 to 20 members Ozanam conferences and founded them himself among students and residents. During his lifetime, approximately 100 conferences were established in France and in 16 other countries with over 2,000 members. His movement spread to all countries of Europe and other continents of the world.

Today the Society of St. Vincenta operates on all continents, in 140 countries, has 40,000 conferences, in which 900,000 unpaid lay members work.

**Within each country there is a National Council** that unites the conferences in that country.

**At the head of the world organization of the Society of St. Vincent de Paul is the General Council in Paris.**

The first conferences of the Society of St. Vincent on our territory were established within the former Austria-Hungary, specifically in Bratislava in 1867 and later in other cities. Conferences were created at universities. The main activity of students at universities was directed towards the poor, to whom they provided financial and material assistance from their own resources. In 1950, the Society of St. Vincent canceled. The activity of the Society of St. Vincenta was restored in 1991 in Levice. After drafting the statutes of the Society of St. Vincent's civil association was approved by the Ministry of the Interior of the Slovak Republic, the Conference of Bishops of Slovakia and in 1996 by the General Council in Paris. Currently, 123 volunteer members work in 23 conferences in Slovakia, and they focus their activities on the current problems of their surroundings.

The conference is established in cities and towns, and anyone who agrees with its statutes can become a member, man, woman and youth from 15 years of age, regardless of nationality and religion. Individual conferences can be women's, men's, mixed and youth. The conference consisting of 5 to 20 members is headed by the chairman, who convenes and takes care of regular meetings of the members, twice a month, where they pray, talk and plan their activities.

Each conference has its own committee, which is elected by secret ballot for a 5-year period. Committee: chairman / must be a Catholic, according to the Statutes of the General Council in Paris/, vice-chairman, secretary, treasurer and recorder. At the founding meeting of the conference, the members choose an activity according to the needs of the environment, which can change at any time. The founding members choose a patron saint of the conference, for example: St. Helena, Anna, etc. The Association has its Statutes, which the interested party must read and agree to before joining the Association. The person interested in membership fills out the member application twice. One remains for the chairman and the other for the NR SVdP.

Conferences united within one country form a whole, which is called SPOLOK SV. VIN- CENTA DE PAUL (abbreviation SVdP) with the attribute of that country. With us, for example it is SVdP in Slovakia . It is headed by the National Council. In Slovakia, we have a National Council, whose members are representatives of all conferences. They elect a committee consisting of a president, vice president, secretary, treasurer, auditor and manager. A specific country must draw up its statutes - these must be approved by the national Conference of Bishops, and only after that the statutes are approved and accepted into the worldwide SVdP organization by the General Council in Paris.

Within the continents, regions are created mostly according to linguistic and geographical affinity.

There are currently 4 EURO-regions on the European continent. The world organization SVdP is headed by **the GENERAL COUNCIL in Paris.**

### Halfway house (DPC) - dormitory

The aim of the half-way home was to provide social care to persons who had completed prescribed institutional care after reaching the age of majority or extended institutional care due to preparation for a profession and did not have secure housing. Due to termination 3- due to the annual stay of clients of the halfway house social service and the lack of other clients, this service was terminated in June 2020. During 2022, 3 girls from the former halfway house stayed in the House of Hope in the DPC premises, and the vacated room came to live in another new roommate in April. There were no problems with the accommodated girls, cooperation with them was at a good level.

### Seat of the National Council and refugees

After the outbreak of the war in Ukraine, refugees from the fighting began to arrive. On March 8, 2022, a family of four came to the House of Hope - refugees from Kharkiv, Ukraine. They were accommodated in 2 rooms on the premises of the 3rd floor, which is available to NR. Grandparents - father, mother, their daughter and granddaughter, a 9-year-old girl. The director of the House of Hope provided them with assistance at the offices, registration in the territory, etc., accompanying them to the doctor and other official requirements. They were immediately provided with material assistance in the form of a collection of food, hygiene, and clothing from the warehouse. At the same time, financial assistance for the most necessary needs. We supported them financially and materially with supplies from the collection from the church, the members also brought clothes and food.

At the time when there were no more collections, we supported them with money, they received approx. 500 EUR for food from the funds that were directly donated to them. The missionary society gave them a donation of EUR 300 for an above-standard tooth repair for their daughter. The General Council provided EUR 5,000 for work with Ukrainians. The project was divided into needs for Ukrainians in the Association, and also for the needs of the House of Hope, the purchase of a new washing machine, vacuum cleaner, cooler, small purchases for Ukrainian refugees. The director of the DON was invited to the performance of the Ukrainian ballet troupe and a banquet, which was also attended by the Prime Minister of the Slovak Republic and the Minister of Foreign Affairs.

During the year, the increased maintenance of the 3rd floor was connected with the use of premises such as oven, toilet, wear and tear of the kitchen, damage to the elevator switch, etc. These problems were solved by the director of the House of Hope. The Ukrainians in the House of Hope spent the big night visiting the Biofarm in Stupava, where they were driven by a volunteer together with the director of the House of Hope, who also gave a gift - canned food, pellets for Felix the cat, the little girl's favorite animal.

## Senior club (KS)

Due to the previous year - the pandemic, the seniors' club collapsed and was not carried out. Seniors had fear of attending joint meetings due to contagion but also loss of mobility due to age.

## Cooperation with the Association for Services of Alcoholics Anonymous (AA)

AA's work consists of group - club activities, for which we rent a designated space in the basement. The AA club operated every Tuesday. Cooperation with AA is good, and it was planned since the first projects of DN activity. The contact person for the AA club is Ms. Mayerová.

### Other work

During the year, the agenda increased - MPSVR energy subsidies, remuneration subsidies, a new information system for regular entry of clients and employees into the MPSVR system, applications for a grant for facilities for the new year together with SC Šuran, an agenda in connection with Ukrainians staying in accommodation, billing, regular reporting to the Ružinov City Council, etc. With regard to the accommodated persons, it was necessary to supervise them, teach them to save, order the premises, save energy, maintain the building and broken things, the security of the building (turning off lights, mechanical repairs, closing the gate at night, etc.). This work was performed by Libuša Miháliková.

### DN maintenance

The works were financed by a donation from Sr. MUDr. Scheidová. **Repairs** (chairs, blinds on all floors, drilling of picture, mirror, dispenser, couch repair, replacement of springs...) were carried out by the DN director's brother. The repair of the leaking toilet wall was carried out by a maintenance worker called from the emergency service. During the Christmas holidays, the pipes in the basement in the kitchen leaked and at the main water shut-off, the emergency service was called. The repair was paid for by MUDr. Scheidová from the donation to DON, there is still a need to complete the replacement of the oven in the kitchen, which they just reinforced.

In the entire house, except for the meeting room on the 3rd floor, the lights were replaced with more energy-efficient ones. This investment will pay off in energy savings. The meeting room on the third floor will be completed later—after the light fixtures are purchased.

## Visit of General President Renát Oliveira from Paris

An extraordinary event was the visit of the Brazilian General President, Mr. Renát Oliveira from Paris, where the conference and the activities of the House of Hope were presented.
